

parkeasy

no circling, just parking

Problem?

Parking, some interesting facts....

- The average driver will spend approximately 2,000+ hours of their life trying to find a parking spot.
- Approximately 95% of a car's time is spent parked, highlighting the importance of the parking industry.

Our Mission

- Parking is a major issue at several places, number of cars rise steadily each year but the land to park on is limited.
- We are here to simplify the parking experience and create passive income opportunities for house owners.

What is **parkeasy** ?

parkeasy is a multi-platform application that connects people needing a parking spot with people who own a parking spot.

It allows the buyers to book a spot in just a tap of a finger at competitive rates and provides owners a way to harness their vacant parking spots to generate passive income.

Why **parkeasy**?

- We **provide** sellers with an opportunity to earn passive income by renting out their parking spot.
- We **allow** buyers to explore open parking spots near their destination at competitive prices.
- We **administer** scheduled bookings of various parking spots, to streamline and make parking experiences easy.
